INTEGRATED HEALTH STUDIES

WHO WE ARE:
The Bachelor of Science in Liberal Arts and Sciences, Major in Integrated Health Studies is a unique collaboration of the research and educational expertise in the health sciences of the College of Liberal Arts and Sciences (LAS) and the College of Applied Health Sciences (AHS). The primary goal of the degree program is to offer a diverse, interdisciplinary curriculum that includes relevant core content spanning the life sciences, natural sciences, social sciences, and humanities. The Integrated Health Studies major is jointly supported by the LAS Departments of Biological Sciences and Psychology and is housed in the Department of Biological Sciences.

WEBSITE: ihs.uic.edu

DEGREES OFFERED: Bachelor of Science

POTENTIAL CAREER OPTIONS:
The major in Integrated Health Studies will prepare graduates who are competitive for admission into professional health programs and into graduate programs in the health sciences and for a wide variety of health related careers. In particular, this degree is designed with flexibility to accommodate the prerequisite course requirements for a variety of in-demand health careers, such as medicine, dentistry, nursing, physical therapy, occupational therapy, and pharmacy.

POPULAR COURSES:
AHS 200, Introduction to Integrated Health Sciences
BIOS 286, The Biology of the Brain
